It was not our intention to buy a red boar last fall in Duncan but we really felt as we watched the show that this was one to at least watch on sale day. We loved his front end as he comes at you, he is stout and wide based. From the profile he is perfect in his curvature from blade to ground. And as he leaves you he is big butted and sound. We never thought we would buy him at the price we did. But that is why he got his name, GOOD DEAL!
