

# Pup

## HAMPSHIRE >> \$75 per dose

### Breeder:

Ed & Brad Mortensen, Kent City, Mich.

### Current Owners:

Center Prairie Genetics  
& Mills Bros., Clinton, Ill.

We felt PUP was a unique Hampshire boar when we saw him in Austin. He is heavy boned, big footed and really wide from front to rear and carries his width square from top to ground. We feel he can be a very potent sire and needs to be used to make wider-based, squarer-made, heavier-muscle Hampshires.

JLM9 TCG Augusta 18-1
