

Real Steel

CROSSBRED >> \$200 per dose

Breeder:

Noah Horsley, Toulon, Ill.

Current Owner:

Center Prairie Genetics

Man of Steel

Real Steel

Black Head

DOB: 2012

Purchased private treaty.

Real Steel is the next step in our program to produce very competitive crossbred hogs. He is so impressive in his base width and barrel shaped rib. You just can't make one any wider and still be functional. He is also wide at his pins and carries this width so well to the ground. His muscle shape is tremendous down his top and through his hip. We are excited to see his first litters and feel he will be a great compliment to Double XL and should work very well on pure York sows.

We extend a sincere thanks to our many customers.
