Here is our pick of the Yorkshire boars at Louisville in 2010. If you need to add base width, depth of body, structural correctness and bone, in a moderate package, this one gets the job done. Sired the 2012 Illinois State Fair Champion Yorkshire Boar and a class winning gilt in the junior show. We look forward to continued success using him, and his daughters bred to LUCKY ELEVEN and TUNDRA are just what we've been waiting for! We like the results.
